

IT PUSHES, YOU RIDE.

Yomper+, power add-on for manual wheelchairs
with fixed or foldable frames.
Made in France

Yomper.

Puts your powered wheel where it works best!

Switch it on and discover new experiences. With or without the power on, your chair will respond effortlessly to your touch. The powered wheel is located in-line with your wheelchair rear wheels, the best position for powering you forward and when maneuvering in tight spaces.

BENEFITS MAKE THE DIFFERENCE

Intuitive and reassuring use

Reliable technology for safe driving. Drive long distances and into previously inaccessible places.

Compatible with most rigid or folding wheelchairs while maintaining your wheelchair's original footprint.

Adapt your driving

As your needs change, the Yomper adapts: 2 modes, inside and outside. 5 adjustable speeds from 0 to 6km/h at your leisure

EasyGo control convenient

Try a dynamic ride, attached to the chair or thigh, the EasyGo remote control is your best friend for effortless everyday use.

Installs quickly and easily

2 small wheels at the front make it stable and allow it to be set up effortlessly. The handle is raised for optimal installation.

THE YOMPER

Attendant command connector and battery charge indicator
